

Spotlight on India

India's Christians are eager to share the Good News of Jesus. Mission India, one of our Spotlight Partners, prepares believers for fruitful ministry as church planters, by giving them a year of training.

This training is divided into four parts starting with classroom learning on topics like discipleship and sharing the gospel. They then engage in three-month periods of hands-on fieldwork where they pray, evangelize, and establish Christ-centered communities. This leads to the formation of prayer groups and the planting of churches, creating self-sustaining Christian communities. Additionally, church planters provide health and hygiene training to improve the overall well-being of the communities they serve. To see about this multiplication, watch the story of "The First Believer" here.

CAUTION: Please do not re-post this video online for the security of those pictured. Thank You!

How you can pray:

- Pray that God multiplies His Kingdom in India, home to 1 in 6 people on earth.
- Pray for the 400+ million people in India who have never heard the name of Jesus.
- Pray for India's people groups, 90% of which are unreached.
