

How Medsend Provides Healthcare and Hope

MedSend is addressing the global healthcare crisis through two key pathways: **supporting U.S. healthcare professionals** with financial relief and well-being resources, and **equipping Christian nationals** with medical training and funding to serve their communities. Through generous support over their 32 years MedSend has:

- Approved **700+ grants**, providing over **\$22 million** in funding.
- Paid off **172 educational loans**, freeing medical professionals for mission work.
- Supported **137 U.S. missionary families** and **55 National Scholars** in the field.
- Reached **5 million people** with the **Good News of Jesus** in **53 countries**, impacting over **1 billion** in underserved communities.

Jessica's Story: Bringing Healing and Hope

This support enables healthcare workers to serve where the need is greatest—just like Jessica Winston, a physician assistant in Ethiopia. In rural villages, families often face an impossible choice: plant crops to survive or seek medical care for a sick child—a heartbreaking reality Jessica sees daily. As the sole clinician on the pediatric ward, she makes life-or-death decisions for critically ill children.

"So often, children come in very sick—beyond any help we can offer. These are the hard days," she shares.

Despite the challenges, Jessica finds joy in treating pediatric patients. **With MedSend's support, she serves without the burden of educational debt, focusing on saving lives and sharing Christ's love.**

"If not for your financial support and prayers, this work would not be possible. I thank my God in all my remembrance of you," she says.

MedSend's impact is real. Every grant allows healthcare workers like Jessica to be the hands and feet of Jesus, bringing physical healing and eternal hope to those in need.
