

Chikondi is reaching nearly 1 million children

Meet **Chikondi**, whose name means "love" and whose mission is to share the love of God with children across North Africa and the Middle East. Since 2019, this ministry has reached nearly **one million viewers** through television broadcasts and online platforms like YouTube and Facebook. But it doesn't stop there. Chikondi also partners with local churches for regional outreach, training teams and serving displaced communities, including Sudanese and Yemeni families throughout the Middle East.

Through animated Bible stories, Scripture memorization, prayer, and lessons on loving one another, children are learning how marvelous God is and how deeply He loves them. These resources are now shared in French, English, Arabic, Farsi, and Turkish.

Discover how your prayers and partnership help make these stories possible.
