

Living Water for a Thirsty World

We're excited to introduce our **Spotlight Partners** for this year. We'll be featuring these global ministries throughout 2026 so our church family can not only see how God is moving around the world but also get to know the people behind the work. As we follow their stories, our hope is that God will stir our hearts to respond with greater faithfulness; praying intentionally, giving generously, and going where He leads.

Living Water International aims to end the global water crisis by linking arms with individuals, churches, and communities to implement sustainable Water Access, Sanitation, and Hygiene (WASH) programs. Guided by a concern for the whole person, both physical and spiritual, they believe that only Jesus can truly transform people, restore relationships, and heal the factors that lead to poverty, hunger, and thirst in our world. Black Rock is excited to partner with their work in South Asia.
